EDUCATION

Sai Gon University (SGU)

Engineer of Information Technology

2022 – Present

GPA: 2.77 / 4.0

Relevant Coursework

Courses: Data Structures and Algorithms, Object-Oriented Programming (OOP), Database Management Systems, Operating Systems, Computer Networks, Software Engineering, Web Development, Java Programming, Python for Data Science.

SKILLS

Languages: Python, Java, JavaScript, TypeScript, HTML/CSS

Tools: Git/GitHub, VS Code, Docker

Soft Skills: Problem Solving, Teamwork, Self-learning

PROJECTS

Tour Booking & Management System | *React, Spring Boot, Java, MySQL*

- Developed a full-stack web application for travel agencies to manage tour operations and online sales.
- Built a secure Admin Dashboard for management and a high-performance Booking Portal for customers.
- Integrated Spring Boot for backend services and used React for a seamless user interface.

Fast Food Management System | *Java, Spring Boot, React, MySQL*

- Designed an integrated management tool for fast food outlets to handle daily sales transactions (POS).
- Developed a comprehensive dashboard to track business performance and inventory levels.
- Collaborated on building a robust backend architecture to ensure data consistency and reliability.

HOBBIES

Landscape Photography: Capturing and preserving the beauty and tranquility of surrounding nature.
